EDUCATION

B.E Honours Electronics and Telecommunication (Specialization in IOT)

Pune, India | 2022

UNIVERSITY OF PUNE

Overall CGPA: 7.8

WORK EXPERIENCE

CODING NINJAS | C++ TEACHING ASSISTANT INTERN

Delhi, India | Dec 2021 – Apr 2022

- Managed and Resolved more than **550** doubts of students on data structures and algorithms with resolution rating of **4.7**
- Reinforced** students over learning of new skills and materials on building up their logic for various algorithms and techniques.
- Mentored** the students and assisted them towards debugging the code.

SKILLS

Languages and Frameworks: C++, JavaScript, React.js, Redux, Node.js, Expressjs, HTML, CSS, jQuery, Bootstrap, Git

Databases and Software: PostgreSQL, MongoDB, Firebase, GitHub

PROJECTS

CYBERSHOP

REACTJS, NODE, EXPRESSJS, JAVASCRIPT, MONGODB, REACT-BOOTSTRAP, GIT

A full-stack eCommerce website using the MERN (MongoDB, Express, React, Node.js) stack and integrated a **RESTful API** to facilitate data exchange between the front-end and back-end.

The website features a **user authentication system**, **product catalog with search**, **shopping cart functionality**, **checkout and payment processing using PayPal**.

The REST API was designed to handle **CRUD** (Create, Read, Update, Delete) operations for all data entities, allowing for seamless integration with the front-end and efficient handling of user requests.

SKETCHBOARD

JAVASCRIPT, REACTJS, CSS

A whiteboard application built with React and Fabric.js is a digital tool that allows users to **create and manipulate graphical elements, such as shapes, lines, and images, on an HTML5 canvas**.

A highly customizable and interactive whiteboard experience that can be used in a variety of contexts, such as in online classrooms, collaborative design sessions, or presentations.

COOKBOOK4U

HTML, CSS, JAVASCRIPT

Built a web application that utilizes the MealDB API to retrieve information about food recipes and present it in an intuitive and visually appealing way. **The API provides access to a vast database of recipes, including ingredients, instructions, recipe video and images.**

Fetches an API according to the food items and categories from the **Remote API** TheMealDB with additional features, such as the ability to save favorite recipes, filter recipes based on specific criteria.

REAL-ESTATE

JAVASCRIPT, REACTJS, CSS

A real estate marketplace project made with React is a web-based platform designed to connect buyers, sellers, and renters in the real estate market. With features like property filtering, search.

LEADERSHIP

TEAM LEADER | 4TH YEAR MAJOR PROJECT (A.I VIRTUAL MOUSE)

Pune, India |

- Organized the team with positive attitude and strong decision making skills and providing the team members essential resources to get the hold of the project fundamentals.

TEAM LEADER | 3RD YEAR MINOR PROJECT (DROWSINESS DETECTION USING RASPBERRY PI)

Pune, India |

- Orchestrated and motivated the team of three members by gathering external data for the project-planning and implementation for the project.
